

CINTAX Demonstration for Nonresident Alien Tax Preparation

International students, scholars and employees who are nonresident aliens for tax purposes are invited to attend a demonstration on how to file their taxes using the CINTAX software provided through The Ohio State University. Two demonstrations will be offered in the Younkin Success Center (Room 150) from 3 - 4 pm on Wednesday, February 25, 2009 and also on Friday, March 27, 2009. You can contact Jodi Kessler at 292-7540 or kessler.91@osu.edu with any questions. The demonstration will provide knowledge on how to navigate, use and obtain help with your CINTAX account. While The Ohio State University staff cannot answer specific questions involving individual tax returns, you will be shown how you can obtain such help through CINTAX.
